Special Note:

The table which shows Refugee Class Principal Applicants By Gender excludes principal applicants who were admitted as 'Dependants Abroad'. The justification for this is that this table attempts to reflect a more faithful representation of the family unit. As such, even though principal applicants are processed in the 'Dependants Abroad' category by administrative convention, they are in fact dependants.

Therefore, principal applicants who are admitted into Canada under the 'Dependants Abroad' category for administrative reasons, are included in the table which shows Refugee Class Dependants By Gender.

Special Note:

The table which shows Refugee Class Principal Applicants By Gender excludes principal applicants who were admitted as 'Dependants Abroad'. The justification for this is that this table attempts to reflect a more faithful representation of the family unit. As such, even though principal applicants are processed in the 'Dependants Abroad' category by administrative convention, they are in fact dependants.

Therefore, principal applicants who are admitted into Canada under the 'Dependants Abroad' category for administrative reasons, are included in the table which shows Refugee Class Dependants By Gender.

Special Note:

The table which shows Refugee Class Principal Applicants By Gender excludes principal applicants who were admitted as 'Dependants Abroad'. The justification for this is that this table attempts to reflect a more faithful representation of the family unit. As such, even though principal applicants are processed in the 'Dependants Abroad' category by administrative convention, they are in fact dependants.

Therefore, principal applicants who are admitted into Canada under the 'Dependants Abroad' category for administrative reasons, are included in the table which shows Refugee Class Dependants By Gender.

Special Note:

The table which shows Refugee Class Principal Applicants By Gender and Education excludes principal applicants who were admitted as 'Dependants Abroad'. The justification for this is that this table attempts to reflect a more faithful representation of the family unit. As such, even though principal applicants are processed in the 'Dependants Abroad' category by administrative convention, they are in fact dependants.

Therefore, principal applicants who are admitted into Canada under the 'Dependants Abroad' category for administrative reasons, are included in the table which shows Refugee Class Dependants By Gender and Education.
